

2022 SNAPSHOT - PUBLICLY-AVAILABLE USAID/WASHINGTON LEARNING AGENDAS

Building and using data and evidence are central to improving USAID's work and fulfilling our commitments to transparency and accountability. Learning agendas are a tool that can help us realize evidence-driven decision-making in our strategies, operations, and programming, by identifying and addressing critical knowledge gaps. The following list, compiled in April 2022, represents the subset of active, publicly-available learning agendas managed by USAID/Washington Operating Units.

Agency-wide or Multi-sectoral
