ADS 201 Additional Help

RESULTS FRAMEWORK INDICATOR ANNEX TEMPLATE

ADS 201 states that preliminary or illustrative performance or context indicator(s) must be included in the Results Framework Indicator Annex rather than in the Development Hypothesis or Results Framework sections of the CDCS. The following template has been developed to provide a structured approach to organizing such an annex. Missions should adjust the tables as necessary to reflect the number of DOs, IRs, and Sub-IRs outlined in their CDCS.

No indicators are required for measuring progress toward achieving a Goal

No indicators are required for measuring progress toward achieving a DO, though performance or context indicators may be selected as appropriate and useful

A Mission must identify at least one performance indicator to measure progress toward the achievement of each IR

A Mission must identify at least one performance indicator to measure progress toward the achievement of each Sub-IR

Program Cycle Additional Help documents provide non-mandatory guidance intended to clarify ADS 201. Curated by the Bureau for Policy, Planning and Learning (PPL), these may include “how-to” guidelines, templates and examples of best practice.

CDCS Results and Indicators for USAID/_____

Objective or Result	Indicators
DOI – Enter DO language here	No indicators are required at this level, though performance or context indicators may selected if applicable and useful
IR 1.1 – Enter IR language here	At least one performance indicator must be identified for each IR
IR 1.1.1 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.1.2 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.1.3 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.1.4 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.2 – Enter IR language here	At least one performance indicator must be identified for each IR
IR 1.2.1 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.2.2 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.2.3 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR

CDCS Results and Indicators for USAID/_____

Objective or Result	Indicators
IR 1.2.4 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.3 – Enter IR language here	At least one performance indicator must be identified for each IR
IR 1.3.1 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.3.2 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.3.3 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.3.4 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.4 – Enter IR language here	At least one performance indicator must be identified for each IR
IR 1.4.1 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.4.2 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.4.3 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 1.4.4 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR

CDCS Results and Indicators for USAID/_____

Objective or Result	Indicators
DO2 – Enter DO language here	No indicators are required at this level, though performance or context indicators may be selected if applicable and useful
IR 2.1 – Enter IR language here	At least one performance indicator must be identified for each IR
IR 2.1.1 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 2.1.2 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 2.1.3 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 2.1.4 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 2.2 – Enter IR language here	At least one performance indicator must be identified for each IR
IR 2.2.1 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 2.2.2 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 2.2.3 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
IR 2.2.4 – Enter Sub-IR language here	At least one performance indicator must be identified for each Sub-IR
