QUESTIONS MATRIX - PV M&E in Dumba Malawi, CBAA project

QUESTIONS FOR COMMUNITY										PV TEAM NOTES		
	Signs (Indicators)	How		Who						Images (after interview)	Done?	Comments?
		Numbers (write notes in comments column)	Interview	w = women m=men g=girls b=boys ew=elder(w) em=elder(m)						*Make notes below on 1 or 2 shots to get related to interview (Ex: someone mentions the queue for water, then you film the queue at the well, separate from the interview - having the interviewee standing by the well for the interview does not count!)*	1 interview = 1 check mark (i.e. if you get three interviews on this question, there should be three check marks)	(Add your own notes here, for example, if you couldn't get an interview on something it's ok, just write why. Also take notes for changes you'd like to make to this form, it will help us improve it.)
