

MCST Data Placemat Scavenger Hunt Activity

Facilitation Plan

Objectives

1. Review results / discussions of pre-meets & reacclimate participants with the data,
2. Begin the conversation about potential pivots/changes, and
3. Bridge from the pre-meets (if you had them) to this event.

Approach

- Participants will search for answers to the scavenger hunt questions on the data placemats provided
- Two rounds (approximately 15 min/each)
- Round 1: Lightning Round. These are multiple choice questions with one right answer. Consider using Kahoot to further gamify the participant experience
- Round 2: Interpretive Round: These are open ended questions that may have multiple good answers. Consider engaging participants in discussion rather than moving on after a single answer.
- Wrap up (15 min): Create a segue to your next activity

Time Required - approximately 45 minutes

Materials

Data placemats | Scavenger hunt slides (sample below) | Candy / prizes

SCAVENGER HUNT TIME

ROUND 1
lightning round

**To play, please go to kahoot.it
by using your mobile device**

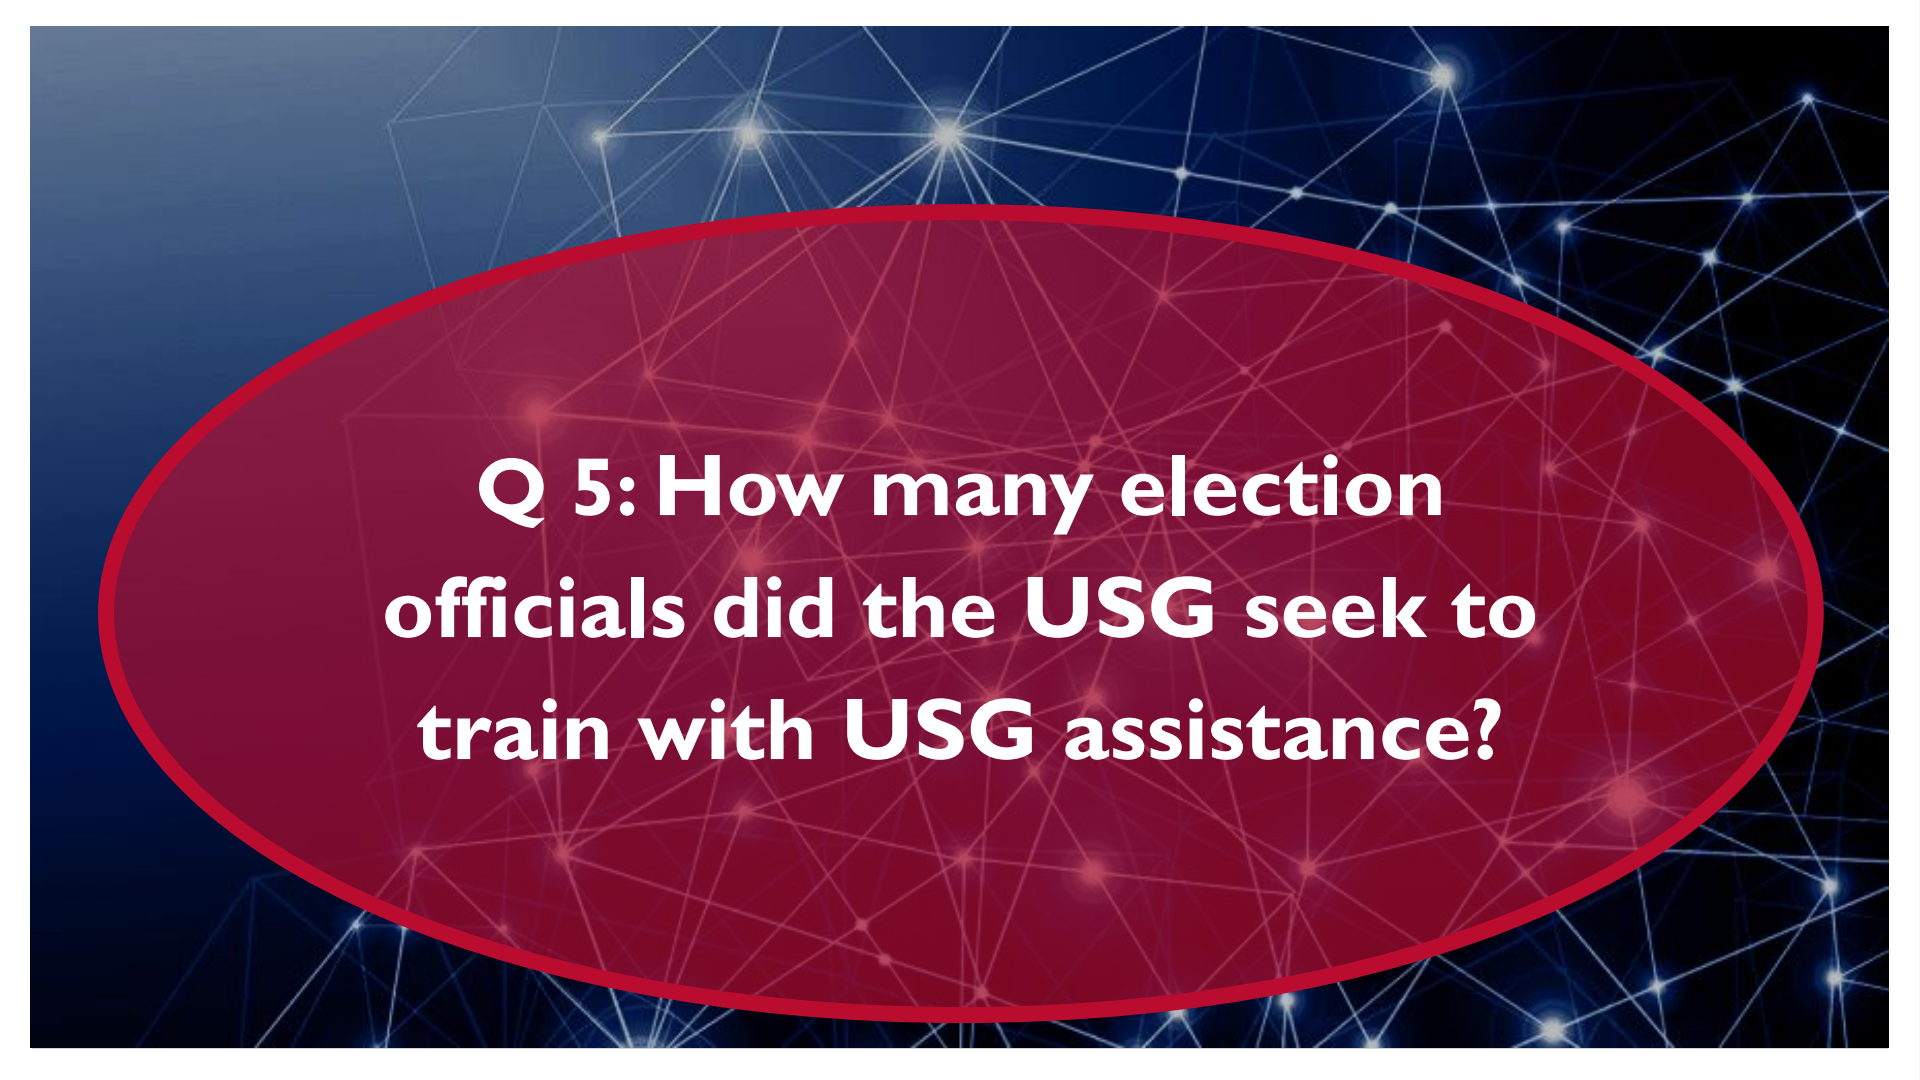

**Q 1: Which FY 2020 result
only achieved 50% of its
target?**

**Q 2: Which two FY 2020
results exceed each of their
targets by 500%?**

Q 3: How many individuals participated in civic activities in target areas in the Donbass?

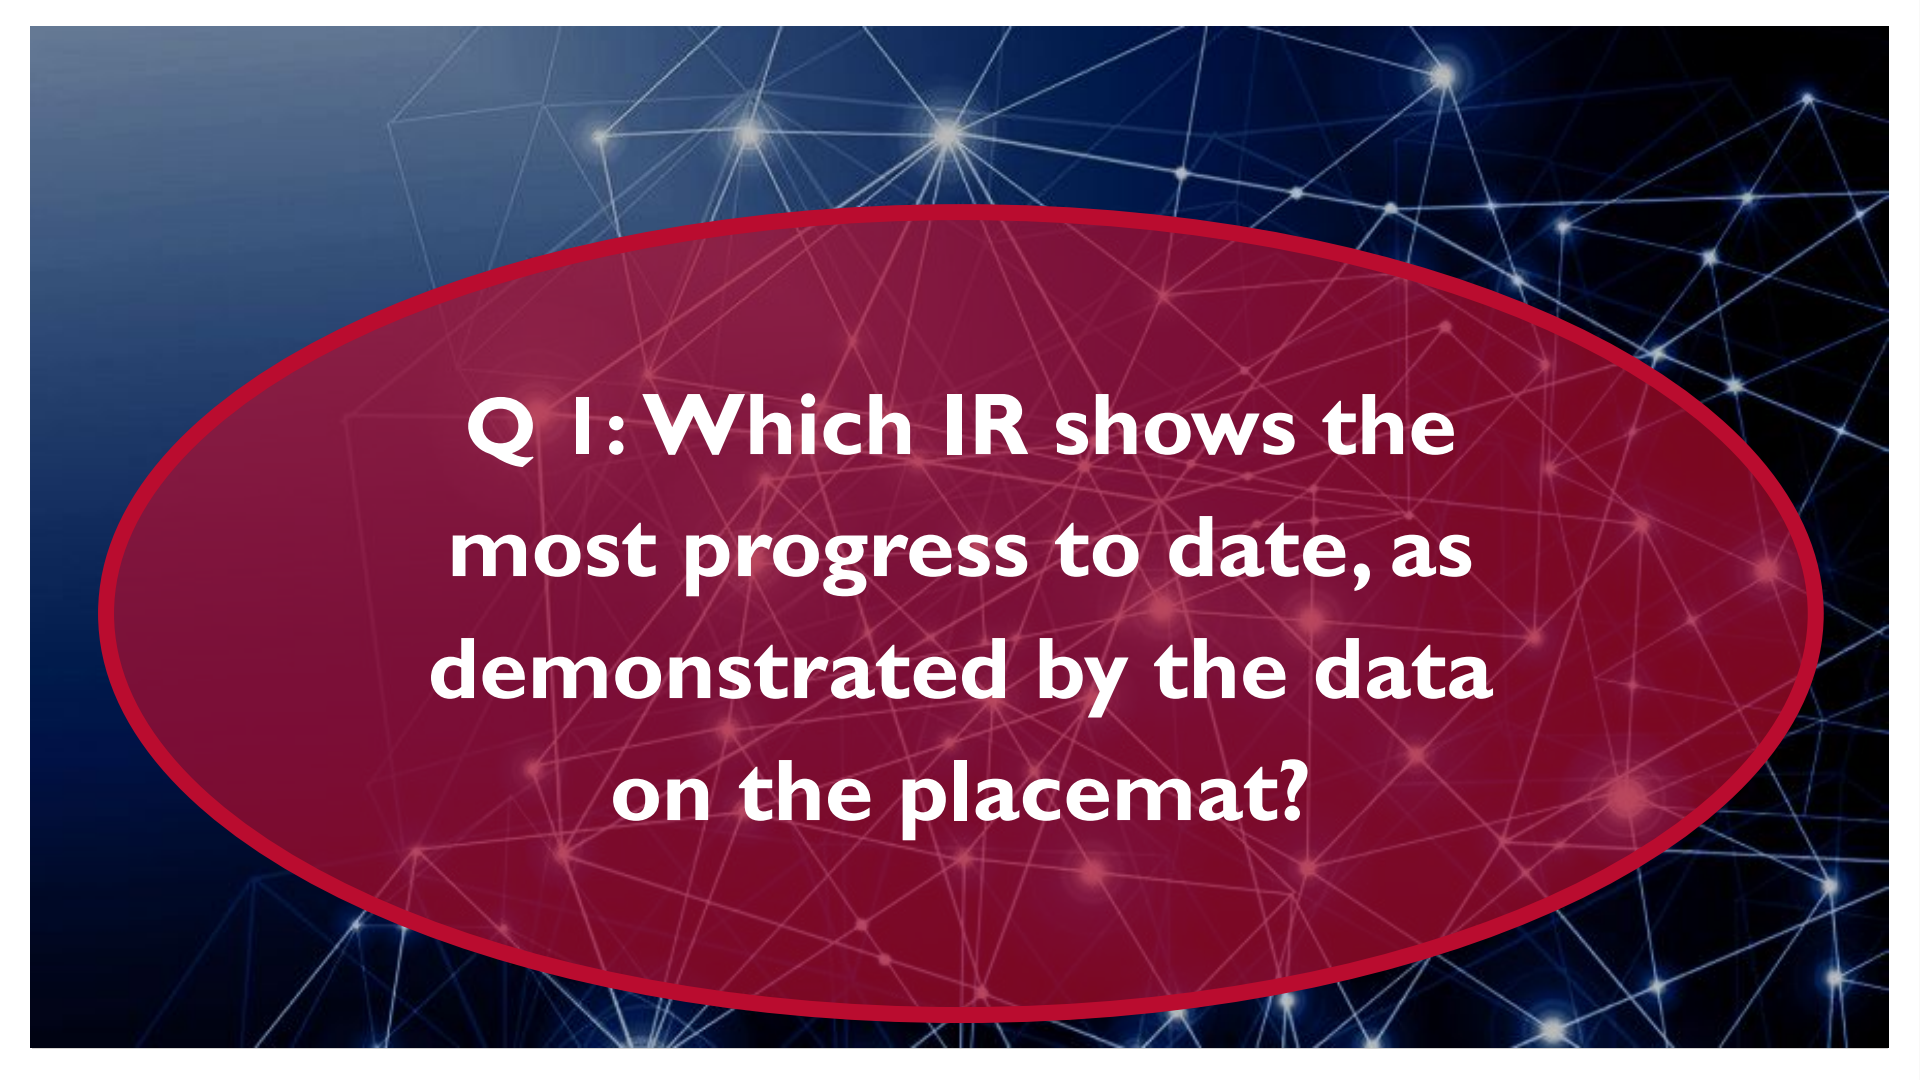

**Q 4: What was the increase
from the baseline in the
number of leasing contracts
concluded as a result of
USG assistance?**

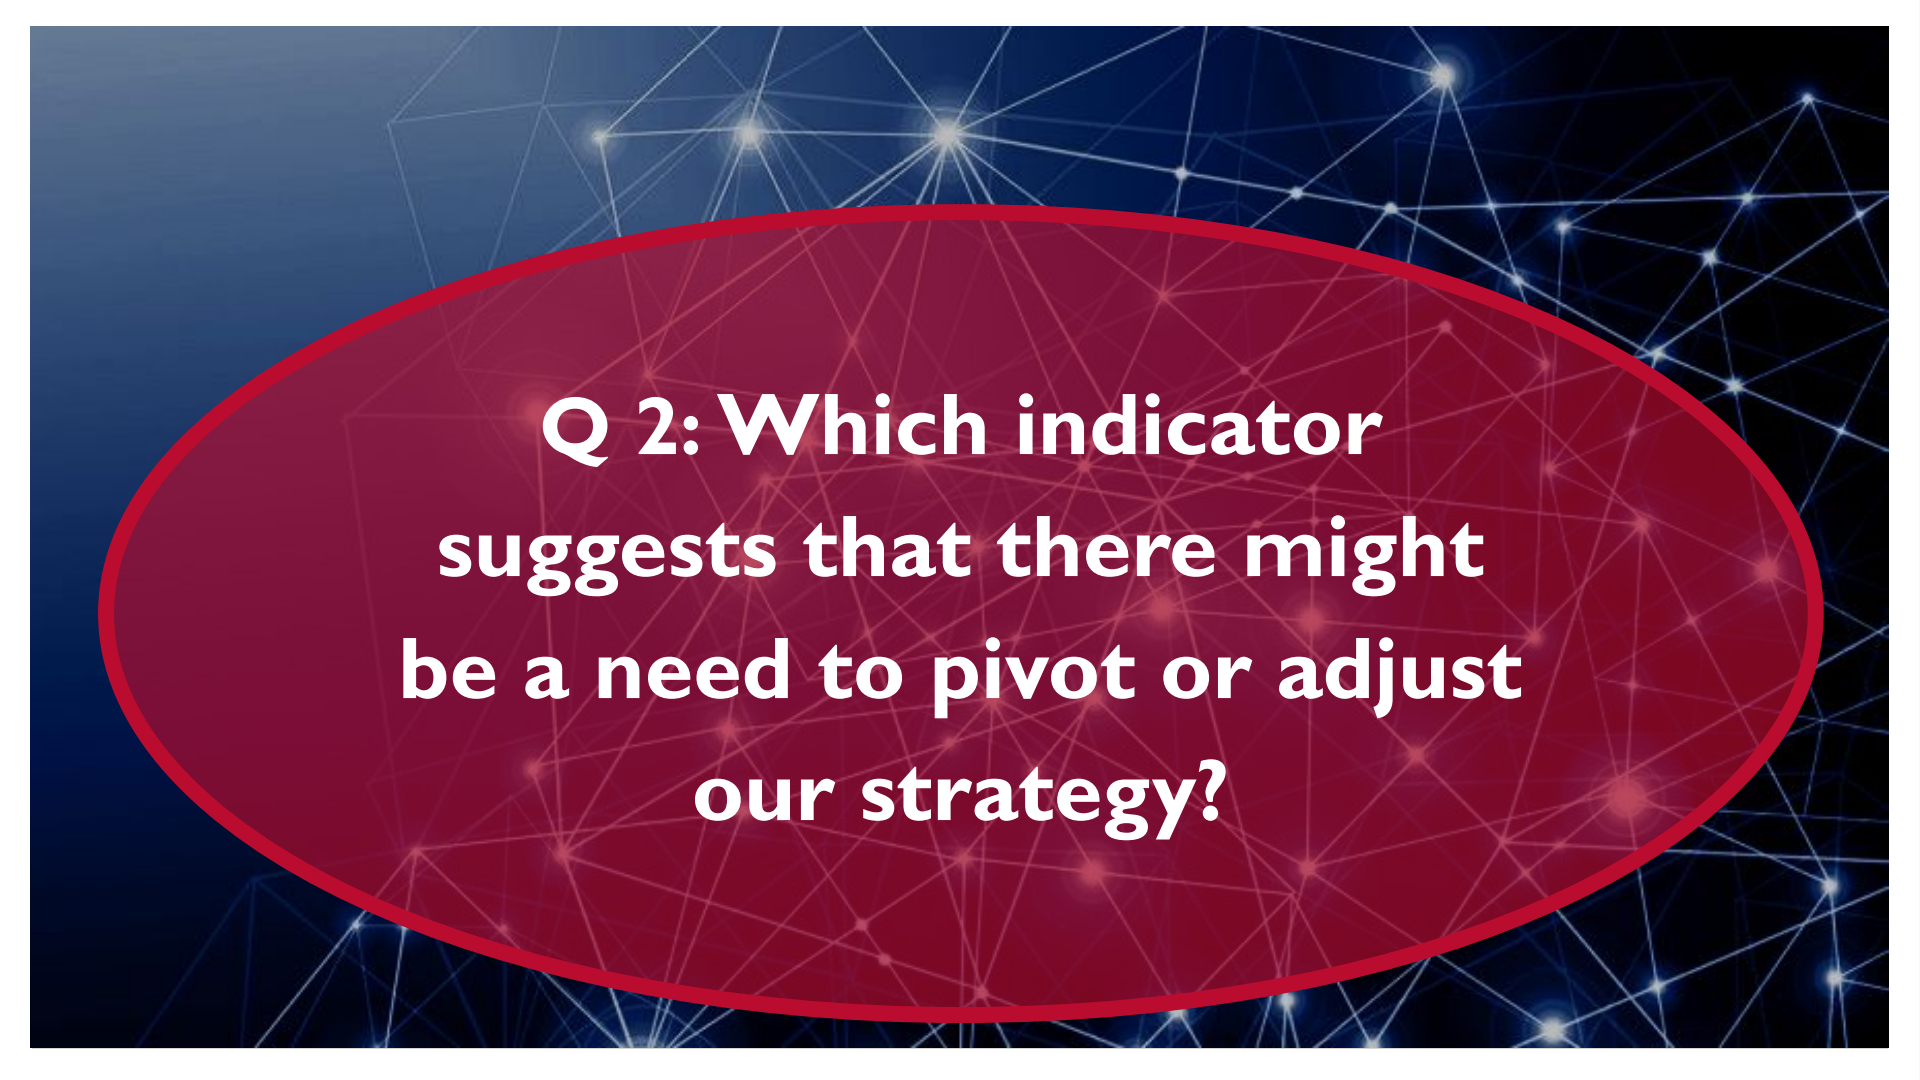

Q 5: How many election officials did the USG seek to train with USG assistance?

ROUND 2
interpretive

Q 1: Which IR shows the most progress to date, as demonstrated by the data on the placemat?

Q 2: Which indicator suggests that there might be a need to pivot or adjust our strategy?

Q 3: Where does the data demonstrate both progress toward achieving our objective and - simultaneously - public perception of success decreasing? Why might this be?

**Q 4: What practice should
the Mission implement
following the Evaluation
Utilization Rapid
Assessment? Why?**

Q 5: Where does our existing data help us understand how our strategic approaches promote DE&I? Why is this important?

**Q 6: According to the data,
where are there bright spots
in terms of citizen
engagement?**

Q 7: How might the Mission consider working (differently) with the national or local government counterparts, based on findings of the Rapid Environmental Assessment?

**THANKS FOR
PLAYING!**
